

#### **4. SYNOPSIS**

The theme of the film is inspired by the myth Apollo and Daphne written by Publius Ovidius Naso. Relationship between a man and a woman is irreversibly affected by the invasion of mocking god Eros.

Events become in human life that permanently stigmatize and transform us to a different being.

#### **5. Film PRESS KIT**

After reports of mass rapes that were committed mainly against women and girls in India, I decided to make a film about lust, desire and ruined relationship. Inspiration to me was the story of Apollo and Daphne. Apollo with his boundless desire completely destroyed the relationship between him and Daphne which may arise. Then both must acquire a new form of being.
